Thx!

Has Tierra but folks on standby for sampling tomorrow (rain predicted)?

I forwarded partial TSS data on 9/13, have not received anything else to date.

No discussion on schedule for comparing data. We have not finished sampling event #2 yet.

Alice:

Going back through e-mails.

Has Tierra submitted the companion Low Solids Particulate data?

Any discussion re a schedule to compare the data from the low solids and high solids methodologies and come to a decision re which method(s) would be used for Phase 2?

Thx,

Bill P.

Subject: Preliminary Data Attempt #2

Good Evening Alice

Please see attached preliminary, unvalidated data for attempt #2 (event 1) at Clay Street. The attached shows HSM Particulate Pesticide results only.

Please let me know if there are any questions.

Thanks
